

INJIO VS INJIO GO FEATURES AND INCLUSIONS

PLATFORM INCLUSIONS

	INJIO	INJIO GO
WORKSHOP AND CONSULTING	WebVine will engage stakeholders in a series of workshops to clarify requirements, finalise objectives, tailor Injio modules and design and create a clear plan for content, search and governance.	No workshops Some assistance may be provided to complete set-up and configuration required.
CLIENT SUCCESS	Integrated Customer Success program with monthly reporting and meetings to drive adoption and ROI	No ongoing customer success program
BRANDING	Choose multiple colours and use them in more areas, eg magic links, announcements, megamenu and events. Branding can be applied in the header, footer, mega menu and all pages.	Basic branding capability (Logo)

PLATFORM INCLUSIONS

	INJIO	INJIO GO
DESIGN	Flexible design and multiple page templates	One home page layout and three page templates provided.
NAVIGATION	Flexible, customised navigation experience using branded mega menus.	One Mega Menu - three levels
TECHNICAL SUPPORT	Yes	Yes
ROAD MAP	Ongoing enhancements via WebVine's development of new Injio modules plus Microsoft road map. Injio clients may choose which updates to apply & when as well as contributing to the Injio road map.	Injio Go clients also benefit from ongoing enhancements but are not able to tailor them to their instance of Injio. Updates will be re-released according to the Injio road map rather than in consultation with clients.
